

Steward Positions at Share Foundation

Share Foundation is an organization that exists to assist developmentally disabled/other-abled persons and their families in many different areas. Currently, we are developing a peaceful, rural and Christian community for individuals, on 185 acres of land called Sharing Meadows. On this land we have built fifteen homes of five villages. Each house is occupied by two mild to moderate developmentally disabled/other-abled adults and a full-time live in staff member. Although the other-abled residents can provide for most of their **self-care**, minimal supervision and teaching is necessary to further foster their independence. Our focus is on encouraging them to be all that they can truly be physically, psychologically, and spiritually! The full-time **live-in Steward position** includes minimally supervising daily activities, including work on the property. We offer a weekly salary of \$250.00, two days off per week on a rotating basis, room, board, **health insurance**, work related transportation, and a bonus of **\$1,200.00** for completing one year of service. Married couples may apply; either one or both individuals may become a paid volunteer.
