

HELP

Save Our Religious Freedom

...in 60 seconds or less.

Text **FREEDOM** to **377377** to defend your right to live by your faith.

As Catholics, our faith plays an important role in our daily lives. We comfort the sick, feed the hungry, care for the poor and protect life. We strive everywhere to practice what we preach.

Across America, our right to live out our faith is being threatened – from Washington forcing Catholic employers to provide services that contradict our beliefs, to state governments prohibiting our charities from serving the most vulnerable. In a country founded on religious freedom, government should not force us to contradict our faith.

During this critical time, we need your help to protect our religious freedom. By texting the word **FREEDOM** to **377377**, we can keep you informed and provide ways you can help. Signup takes less than a minute, but your participation will have a lasting impact.
